All this information came from the South Florida Area Archives. This is what can be done with all the papers and memorabilia sent to me for the South Florida Area Archives. Keep the information coming!!!

Now it's your turn to be an archivist at the personal level. Take this back to your group: first to share then to complete a group history for your group and mail it to me for your District 13 file. These records make a group and district a permanent part of Florida Area and South Florida Area Archives.
